Bruce Willis

Born on March 19th, 1955, on a military base in Germany, Bruce Willis has always had a strong personality and a gift for acting.

He was a very energetic teenager and became active in various drama clubs. His first leading role was in the very successful TV series “Moonlighting” and his first great success was “Blind Date”. “Die Hard”, “Hudson Hawk”, “Armageddon” and a number of other unforgettable Hollywood hits followed.

Bruce Willis is of medium-height and well-built. What makes him so active is his smile and his laughing eyes. He looks great in expensive suits, but he prefers casual clothes.

Of course he is not only well-known for being good looking. He is a talented actor with a complicated personality. He’s also a very sociable and outgoing person. His life and career have shown that, with determination and a strong will, you can succeed in whatever you choose to do.

Bruce Willis was married to film star Demi Moore, with whom he has three beautiful daughters. Unfortunately, his married life was not as successful as his career. That’s why he got divorced. Of course he loves his children and tries to spend as much time as possible with them, although he sometimes feels he doesn’t see them enough.

Bruce Willis is indeed a unique personality, whose character has many sides. One thing is for sure; his talent and fame will continue to shine for many years to come.

Wales is one of the (beautiful) countries in the United Kingdom. Cymru, as it is known in Welsh, is surrounded by sea on three sides. The country is full of little towns, castles and picturesque seaside villages. Cardiff, the capital, is a bustling university town with an impressive castle, wonderful museums, galleries and (love) buildings.

English is the official language, but Welsh, one of the (old) languages in Europe, is still spoken in some parts of the country. Welsh has a (beauty) song-like quality, which is perhaps one reason why singing is such a favourite pastime. Playing music, including (tradition) instruments such as the harp, is another popular hobby.

Wales' breathtaking beauty attracts travellers from around the world. Snowdonia, Britain's second largest (nation) park is located in the north of Wales. With its amazing forests, lakes, waterfalls, rivers and ancient burial sites, the park is a popular tourist attraction. In the north of the country, high above a pretty bay, stands Carnarvon Castle built in 1283 for the first Prince of Wales. In the west is St David's, a quaint village by the sea that has the (large) cathedral in Wales.

Wales has many (wonder) traditions. The Welsh are proud of their culture. One of the oldest cultural competitions, The Royal National Eisteddfod, takes place every year at the beginning of August. It is an eight-day festival of music and poetry to celebrate Welsh language, art and culture. It is the largest and (popular) festival in Wales and attracts thousands of visitors.

The sun was shining brightly in the clear, blue sky. (1)... Ted Brown was sitting in his office, daydreaming. "I wish I were on a sandy beach in an exotic place", he thought to himself, as he looked out of his office window at the busy streets below.

Just then, the telephone rang loudly. Ted jumped in surprise. When he picked it up, a voice said, "Come to the Grand Hotel at six o'clock. I have something for you." "Who's there?" Ted asked, but there was no answer. Puzzled, he looked at his watch. (2)... He knew he'd have to hurry if he was to get there in time, so he quickly left the office. The traffic outside was terrible, so Ted decided to make the journey to the hotel on the underground.

(3)... It took him almost an hour to get to the hotel. At exactly six o'clock, Ted was entering the impressive building. Ted walked towards the reception desk and asked if anyone had left anything for him. (4) ... Ted opened it and took out the card which was inside. It said "Come to room 147 on the 10th floor and knock on the door three times." By now, Ted was very anxious to find out what was going on. When he found room 147, he knocked on the door three times and waited. (5) ... The room inside was dark.

As Ted stepped inside, all the lights came on. "Surprise!" yelled Ted's friends and family. Ted couldn't believe his eyes. "Happy Birthday, Ted," said his mum. (6) ... His boss gave him another envelope which contained a ticket for a week's Caribbean cruise. Ted was amazed! "Thank you, everyone," he said, "this is the best birthday present ever!"

A "I thought everyone had forgotten," replied Ted.

B It was very hot in the city centre.

C The station was crowded with people and so was the train.

D There was no answer, so Ted decided to open the door.

E It was already five o'clock and the hotel was on the other side of the city.

F The receptionist gave him a small white envelope with his name on the front.

Diamonds are a Girl's Best Friend

- (a) Pam screamed when she saw the man running past her. Suddenly he slipped on the wet pavement and fell to the ground. Pam quickly picked up the bag that had fallen from the man's hand and pulled off his mask. At the moment the police arrived.
- (b) Three hours later, Pam was walking home when a man stopped her. It was the man she had seen chasing the thief out of the shop. "Miss Brown? I'm Hans Van Burg. I just wanted to thank you for your bravery," he said. "Here, this is for you." He handed Pam a small velvet case. Inside it was a beautiful diamond necklace. "Oh, my goodness!" Pam said with a delighted smile on her face. "Dreams really can come true!"
- (c) It was a cold, cloudy morning in October and Pam Brown was on her way to the supermarket. It had rained earlier, so the pavements were wet and slippery.
- (d) Pam walked past all the expensive shops. She stopped in front of Van Burg Jewellers and admired the magnificent jewellery in the window. It had always been Pam's dream to own a diamond necklace. Suddenly, a man wearing a mask and carrying a bag ran out of the shop. Another man rushed out after him, shouting, "Stop that thief! Stop him!"

This is a plan of a shop. The shop is long and narrow. The newspaper stands are on display in front of the shop – so you can pick up a paper and then come in and pay. You can also choose postcards out there, though there's another stand inside, near one of the counters. As you come in, books and magazines are facing you on the far wall, and there are more books on the ends of the central display unit. Sweets and chocolate bars are displayed on the near side of that unit, here. The idea is that you can see them from outside through the glass windows. Souvenirs and presents, like typical Spanish sweets and dolls, are on the far side, facing the back wall. We keep cigarettes behind the left-hand counter, and things like batteries behind the other counter. Then in the far left-hand corner of the shop are the Disney products – toys and stationery. On the same shelves, but towards the front of the shop, we have children's books and then maps and guidebooks. On the other end wall, ordinary stationery items like diaries and notebooks are at the back, and closer to the counter are travel accessories and games.

- 1) The newspaper stands are inside the shop.
- 2) You can see postcards inside the shop as well as in front of the shop.
- 3) Sweets and chocolate bars are displayed on the far side, facing the back wall.
- 4) Cigarettes are kept next to batteries.
- 5) There isn't any stationery in the shop.

Orbis is an organisation which helps blind people everywhere. It has built an eye hospital inside an airplane and flown it all over the world with an international medical team. Samantha Graham, a fourteen-year-old schoolgirl from England, went with the plane to Mongolia. Samantha tells the story of Eukhtuul, a young Mongolian girl.

„Last year, when Eukhtuul was walking home from school, she was attacked by boys with sticks and her eyes were badly damaged. Dr Duffey, an *Orbis* doctor, said that without an operation she would never see again. I thought about all the everyday things I do that she couldn't, things like reading schoolbooks, watching television, seeing friends, and I realised how lucky I am.‘

„The *Orbis* team agreed to operate on Eukhtuul and I was allowed to watch, together with some Mongolian medical students. I prayed the operation would be successful. The next day I waited nervously with Eukhtuul while Dr Duffey removed her bandages. „In six months your sight will be back to normal,“ he said. Eukhtuul smiled, her mother cried, and I had to wipe away some tears, too! ‘

„Now Eukhtuul wants to study hard to become a doctor. Her whole future has changed, thanks to a simple operation. We should all think more about how much our sight means to us. ‘

1. What can a reader learn about in this text?

- A the life of schoolchildren in Mongolia
- B the difficulties for blind travelers
- C the international work of some eye doctors
- D the best way of studying medicine

2. After meeting Eukhtuul, Samantha felt

- A grateful for her own sight.
- B proud of the doctor's skill.
- C surprised by Eukhtuul's courage.
- D angry about Eukhtuul's experience.

3. What is the result of Eukhtuul's operation?

- A She can already see perfectly again.
- B After some time she will see as well as before.
- C She can see better but will never have normal eyes.
- D Before she recovers, she will need another operation.

A fire destroyed a large part of a forest in the north of Italy on Saturday. Thousands of trees were burned in one of the worst forest fires in the country's ____.

The fire started on Saturday afternoon after a long period of drought. The fire very quickly ____ vast areas of forest due to high winds. ____ battled on foot and from the air for several hours trying to bring the fire under control. By the time this was achieved however, a large part of the forest had been totally destroyed. The ____ from the fire formed such a large and dark cloud that it was said to have turned day into night.

Several people were injured in the ____, but fortunately no one was killed. Rescue workers have picked up casualties by helicopter and have taken them to the nearest hospitals. It is also feared that many animals have lost their homes or were killed in the fire.

A project will be set up by the government to clear the area so that the local ____ can begin planting trees as soon as possible. „It is a terrible ____“, a firefighter said. „It will take years for the forest to grow again“.

WALKS FOR EVERYONE

A HURDLES

This is a route for the experienced walker. It crosses two rivers and includes hills of up to 500 metres, from which you can see the sea. There are several rocky paths that are unsuitable for children or older people and there are no shops so take plenty of water.

B PADDOCK WAY

This is a really short track across a working farm. There are plenty of chickens and sheep to see, and the farmer has turned some of the buildings into an educational centre with a café. Not a walk for those who like peace and quiet, but good fun.

C CUTTERS WAY

This walk can take anything from 30 minutes to two hours. It's not a good walk for hill-lovers as the ground is completely flat, but it has good signposts and simple facilities for the hungry or thirsty walker. A few places or things to see would improve this walk, which can be a little dull.

The people below all want to move to a new home.

Напишите ответ на письмо подруги по переписке, в котором она сообщает:

I always hear that children are less educated today because television cannot replace the book as a teaching tool. It's totally untrue. There are some very good programmes on TV, where you can learn loads of stuff, such as films about wildlife in remote places and history programmes with real-life characters. These type of documentaries do more to educate a child than any book does, because they're more alive. Do you think that our generation is less educated? What is your opinion?

Для ответа вы можете использовать следующий план:

- начните со вступления (обозначьте проблему)
- выразите свое личное мнение и подкрепите его двумя-тремя доводами
- выразите противоположное мнение, подкрепив 1-2 причинами
- объясните, почему вы не согласны с противоположным мнением
- сделайте заключение, подчеркнув вашу позицию

Over the years, I have shared many good times with Julie. She has been one of my best and most trusted friends. I feel fortunate to have met her.

I've known Julie since my first day at school, when we were only five. I can remember her smiling face as the teacher, Mrs Snow, asked me to share the same desk with her.

Julie is quite short and slim. She's got a round face with beautiful almond-shaped eyes and a slightly upturned nose. She often wears her shoulder-length fair hair in a pony-tail. Julie prefers comfortable clothes and can often be seen wearing a blue jumper, a pair of denim jeans and trainers.

Although Julie is quite reserved, she is a kind person who will listen to your problems and try to help you. She is also quite active and enjoys outdoor activities.

One of Julie's favourite hobbies is cycling. She also enjoys reading people's horoscopes and trying to predict what will happen in the future. Julie likes going to the cinema and is especially fond of adventure films.

You don't have to _____ to get from Britain to central Europe. Why not cross the English Channel by boat, or go through the Channel _____?

Dover, on the south coast of England, is one of the world's busiest ports. Every day lots of ferries and high-speed catamarans called "Seacats" arrive and live. It's a short trip across the English _____ to Calais and Dunkirk in France, or to Ostend and Zeebrugge in Belgium. A traditional ferry takes 90 minutes from Dover to Calais, but a catamaran is much faster and can make the same journey in 35 minutes.

If you don't like boats, why not go on a _____ under the sea? The Channel Tunnel is 50 km long and 40 metres below the seabed. Getting from the port at Folkestone across to Coquelles near

Calais is only a 35-minute _____ journey through the tunnel. It's more expensive than a ferry, but quicker and much more exciting. Thanks to the Channel Tunnel, it is now possible to spend the day in Paris shopping and sightseeing, and be back in London in time for dinner in the evening!

Since it opened in 1994, 57 million people and 12,000 cats and dogs have _____ through the Channel Tunnel.

King Arthur

They spent their time hunting wild pigs, having feasts and singing ballads. They often had to kill dragons and giants. At all times they behaved very bravely, with respect, honour, and compassion.

He was brought up by Merlin, an old Celtic magician, and became King of Britain when he was fifteen. He proved fit to be king when he managed to pull a sword from a rock. He had to fight many lords, and when, with Merlin's help, he defeated them, he received the magic sword Excalibur from the Lady of the Lake. He married Guinevere and lived in a castle at Camelot.

The legends of King Arthur began to appear in the twelfth century, and it is possible, that they are based on a Celtic leader in the fifth or sixth century who defended his country from the Saxon invasion. King Arthur was the son of Pendragon, and was born in Tintagel in Cornwall.

His knights sat at a round table so that they were all equal - nobody was sitting at the head of the table. Many of the stories in the legends are about the adventures of the knights, among them Lancelot, Perceval, Gawain and others.

The purpose of this report is to assess the new Blue Moon restaurant in Abbingdon's city centre, which I visited on 14th May.

The menu at the Blue Moon is rather boring for vegetarians as there are only a few salads to choose from. However, there are plenty of delicious dishes for those who eat meat. I ordered the grilled chicken with Basmati rice. The chicken was very tasty, but the rice was rather cold. I also thought that the Blue Moon was rather expensive.

The staff at the Blue Moon were friendly and helpful. Even though my guest and I asked a lot of questions, our waiter remained polite and patiently explained many dishes to us. Although it was very busy on the night I visited the Blue Moon, the service was fast.

The comfortable seating, lovely furnishings and live piano music helped to give the Blue Moon a relaxing atmosphere. The excellent food and service definitely made our evening pleasurable.

A Vehicle owners will no longer buy collision insurance since manufacturers will be solely responsible for damage. Owners will only need theft insurance and coverage for hail, falling objects or floods. To take this one step further, personal vehicle ownership may dramatically diminish. Car dealers will have lots full of vehicles for hire on a daily or hourly basis instead of vehicles for sale. When you need a car, you'll summon one using your mobile phone. The closest unmanned vehicle will be dispatched to your home to take you where you need to go. When done, you'll simply push the button for the unmanned vehicle to drive itself back to the rental lot.

B Driverless cars are expected to be rolling into the streets within the next 20 years. In fact, they've legally been on the roads for the past years, approved for testing purposes. It is predicted that driverless vehicles will be commercially available at a high cost within 7 years, but it may take another 8 years for prices to drop enough to spur mass consumption.

C This resembles the historical factors that affected the transition from horse to the automobile. At the moment, the driverless car seems like a novelty. However, it will open up new prospects. The prospect of flying cars may soon become a reality. With computer-controlled vehicles that strictly follow traffic rules, three dimensional roads become far less scary and more a matter of simply solving the technological challenge.

D The social and cultural impact of driverless cars could cause far more upheaval than any of us could imagine. Perhaps, it would be even greater than the impact the Internet had on commerce and communication. Obviously, the picture being painted is the one that assumes total adoption, which is

far from realistic. You will always have transitional delays caused by the lack of free cars, the longevity of today's vehicles and cultural resistance.

Promoting language learning

The European Union (EU) is committed to supporting the rights of its citizens to personal and professional mobility, and their ability to communicate with each other. It does so by **A**_____ to promote the teaching and learning of European languages. These programmes have at least one thing in common: they cover cross-border projects involving partners from two, and often three or more, EU countries.

The EU programmes are designed to complement the national education policies of member countries. Each government is responsible for its own national education policy, **B**_____. What the EU programmes do is to create links between countries and regions via joint projects, **C**_____.

Since 2007 the main programmes have been put under the overall umbrella of the EU's lifelong learning programme. All languages are eligible for support under this programme: official languages, regional, minority and migrant languages, **D**_____. There are national information centres in each country, **E**_____.

The cultural programmes of the EU also promote linguistic and cultural diversity in a number of ways. The "Media" programme funds the dubbing and subtitling of European films for **F**_____. The "Culture" programme builds cross-cultural bridges by supporting the translation of modern authors into other EU languages.

Space could solve water problems

Have you ever tasted saltwater? I guess you have and if so, you will agree with me that it's not very refreshing. In fact, drinking more than a few cups worth can kill you.

According to the United States Geological Survey, whose mission is to collect and disseminate reliable, impartial, and timely information that is needed to understand the nation's water resources, about ninety-seven percent of the water on our planet is saltwater; the rest is stored in lakes, rivers, glaciers and aquifers underground. Moreover, only about one-third of the world's potential fresh water can be used for human needs. As pollution increases, the amount of usable water decreases.

Water is the most precious and taken-for-granted resource we have on Earth. It is also one of the most threatened resources. Increased population and possible climate change will put more and more strain on supplies of this vital resource as time goes on. What could we do in this situation? Though it may seem like science fiction, the solution could lie in outer space.

I'm not saying we're going to be teleporting to a spring on the other side of the galaxy or colonizing another planet just to have longer showers – it's much more mundane than that. What we could achieve realistically in this century is the successful use of the solar system's rare metals and water, barring the invention of the matrix. You may be surprised to learn that the metal in your keys, coins, cell phone, computer, car and everywhere else, originally came to this planet from space.

When Earth formed, the heavy metals sank to the center and formed a solid core. The lighter elements formed the mantle and the crust we live on. Asteroids and comets that struck the Earth brought water and metals to the surface. There are thousands of asteroids orbiting near Earth. Most asteroids are made of rock, but some are composed of metal, mostly nickel and iron. Probes could be sent out to

these to identify useful ones. Then larger probes could push them towards the Earth where they can be handled in orbit.

In order to fuel ships and probes, we simply need to find a source of water, such as a comet or the surface of the moon. We collect the water and pass an electric current through it from a solar panel. The water separates into oxygen and hydrogen, which in liquid form is a powerful rocket fuel. Is this really possible? We may soon find out. Private company *SpaceX* has already started delivering equipment to the International Space Station (ISS). The ISS is proof that countries once at each other's throats, like America and Russia, can work together and pull off multi-billion dollar projects.

Recently, a company called *Planetary Resources Inc.* made the news for getting big names like Google and Microsoft to invest in exploring asteroids for material gain. Although it will take many decades, it is wise to put the gears in motion now.

We've already landed probes on the surface of asteroids and taken samples from them. We can put something as large as the ISS, which weighs just short of 500 tons, according to National Aeronautics and Space Administration (NASA), in orbit. We can make a half-million-mile round-trip to get rocks from the moon. We can do all of these things already. They just need to be applied and developed in a smart way.

1. What problem is raised in the article?

- 1) Cooperation in space.
- 2) Threats of climate change.
- 3) Danger of drinking salt water.
- 4) Lack of water supplies on Earth.

2. According to the author, the information published in the US Geological Survey is meant to ...

- 1) assure the nation that there is still enough of usable water.
- 2) help to monitor the state of the country's water resources.
- 3) demonstrate the quality of water the nation uses.
- 4) warn the public about the dangers of water pollution.

3. The author thinks that outer space ...

- 1) is dangerous because of asteroids.
- 2) is a source of important supplies.
- 3) is not studied properly.
- 4) should be colonized.

4. According to the author, the space water sources may be used for ...

- 1) fuel production.
- 2) water supplies for spaceships.
- 3) moon exploration.
- 4) the production of electricity.

5. The *Google* and *Microsoft* (paragraph 9) are mentioned to ...

- 1) explain how *Planetary Resources Inc.* became famous.
- 2) prove that asteroids can be commercially attractive.
- 3) show that space research is important for computer science.
- 4) prove that asteroids can interfere with the Internet.

6. The expression "*put the gears in motion*" in "...it is wise to put the gears in motion now" (paragraph 9) means ...

- 1) to explore.
- 2) to begin.
- 3) to move.

4) to invest.

7. What idea is stressed in the last two paragraphs?

- 1) There is room for further achievements in space exploration.
- 2) Asteroids are unique objects for scientific research.
- 3) Only smart administration can manage space programs.
- 4) International Space Station is the heaviest object in space.

They took up complete floors of a building, and were less powerful, and much slower than any of today's compact portable computers. At first, the data they had to process and record was fed in on punched paper; later magnetic tape was used, but both systems were completely inconvenient.
